Refer to the Service Manual for the torque values of the removed parts.

INSTALLATION

⚠ CAUTION

- To prevent burns, allow the engine, exhaust system, radiator, etc., to cool before installing the accessory.

NOTE:

- Take care not to damage the painted surfaces of the motorcycle.
- Reinstall the removed parts on the motorcycle and make sure that wires and harnesses are not pinched.
- Disconnect the negative (-) cable from the battery before installing this accessory.
- The memory of the trip meter will be erased and the clock will stop when the battery is disconnected. After reconnecting the battery, refer to the motorcycle Owner's Manual and reset the clock.

1. Refer to the Service Manual for the motorcycle, remove the seats.
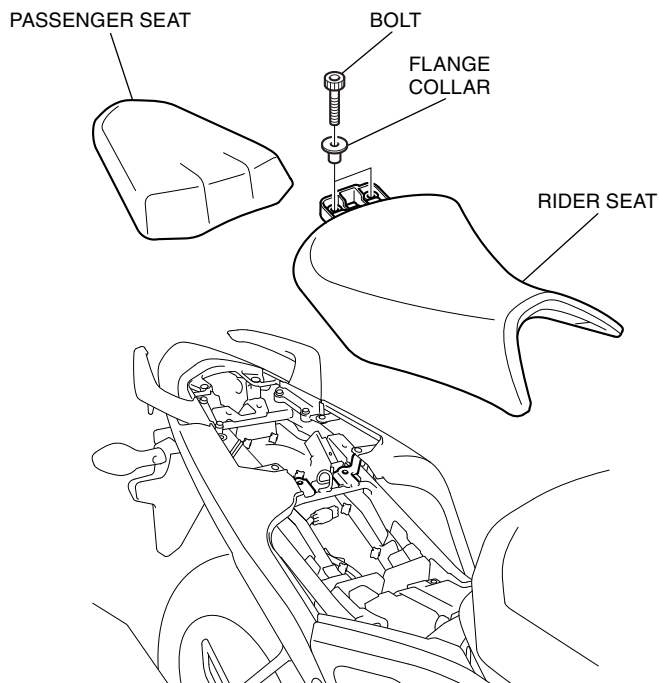

2. Disconnect the negative (-) cable from the battery as shown.
