Radiator Guard

Installation Instructions

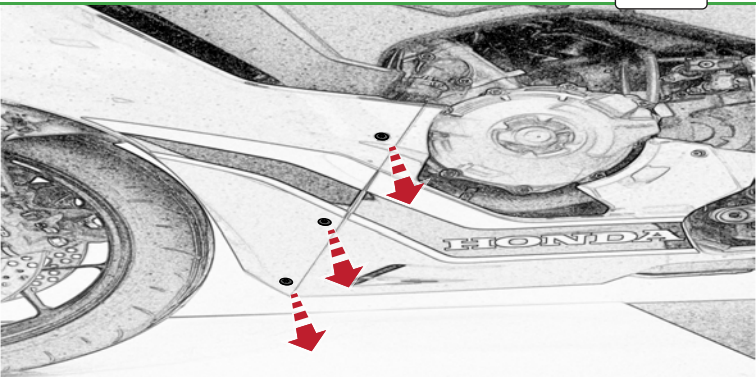

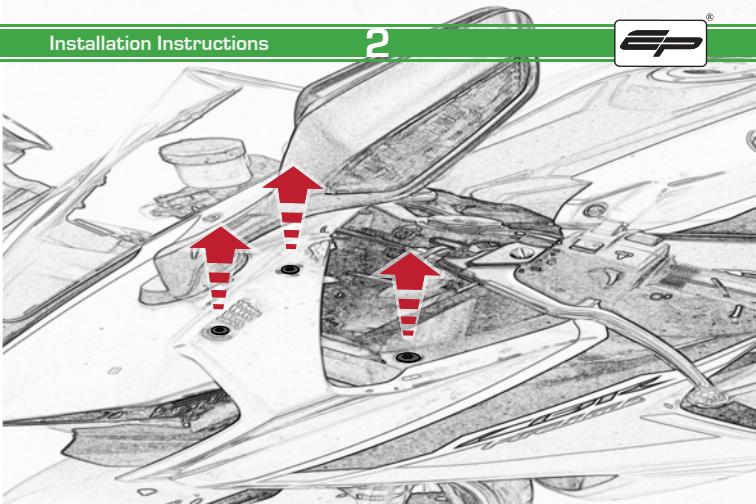

Part No: PRN013648

Kit Contents

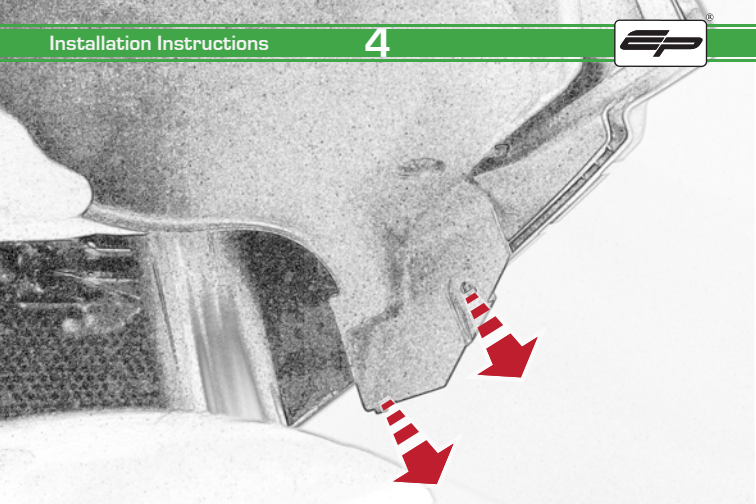

- A** 1 x Radiator Guard
- B** 1 x Bottom Bracket
- C** 6 x Rubber Caps

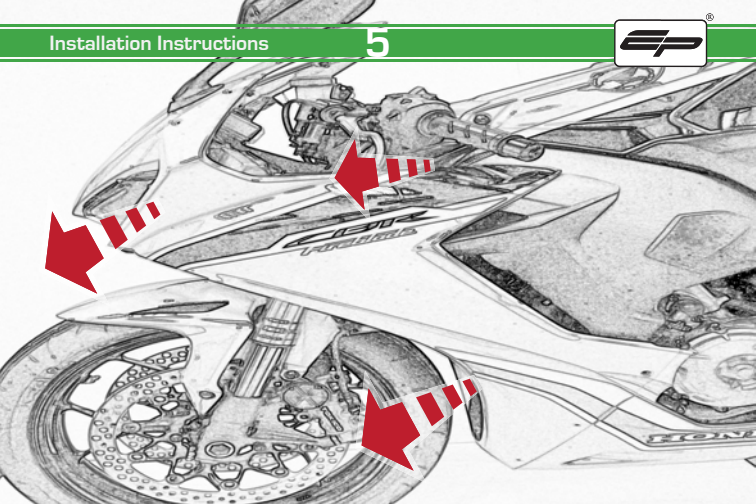

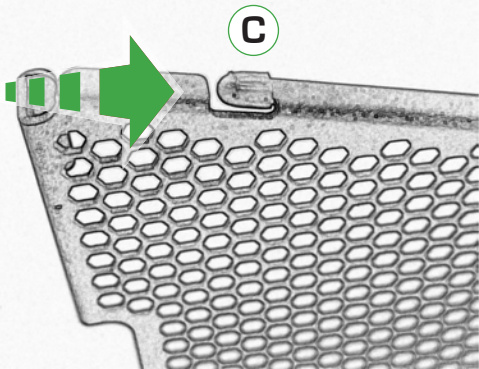

Loosen ABS bracket bolt.
Only rotate 2 full turns.

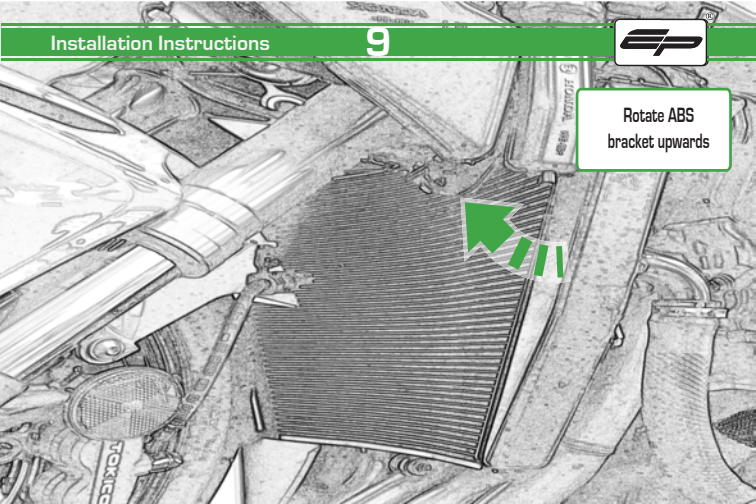

Fit 6 rubber caps
over hooking points on
the radiator guard

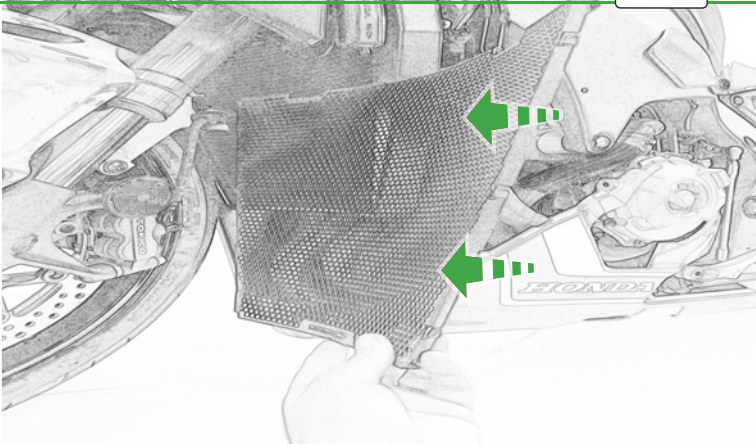

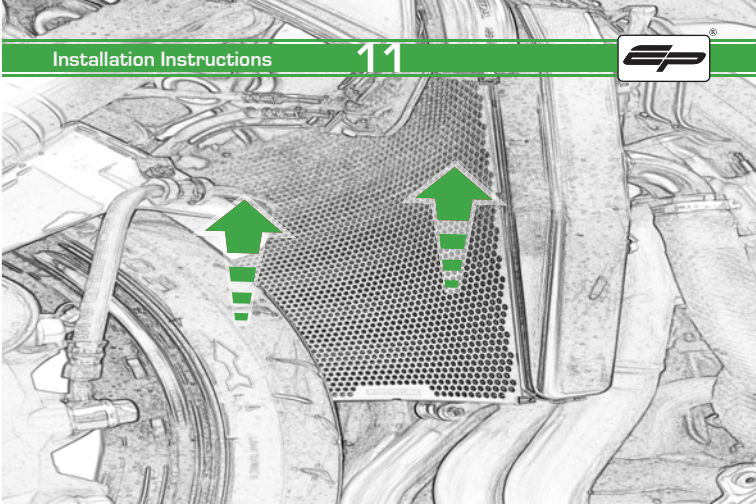

Rotate ABS
bracket upwards

Ensure radiator guard securely hooks over the top lip of the radiator

A diagram within a green-bordered box shows a cross-section of the radiator guard's top edge. A green arrow with three dashed lines above it points to the top lip of the radiator, indicating that the guard's hook should engage with it.

ESSENTIAL CHECKS

It is recommended that periodic inspections are made to ensure that dirt and debris have not become trapped between the guard and the radiator/oil cooler. Such dirt and debris would reduce the cooling efficiency of the radiator/oil cooler.

It is recommended that periodic inspections are made to ensure that all fixings are fully tightened.
